

Hemant Sharma

Fashion Design Student

About Me !

As a designer my aesthetic is streetwear mixed with classics or ethnic wear. I mostly design gender fluid clothes. My design derives experimental cuts and trims. I follow minimal fashion and accessories them with statement jewellery. I experiment with different silhouettes and colours.

My concepts are all about telling stories of various emotions, lifestyle, situations and drama. My priority is sustainable clothing and zero waste production. As a designer I prefer to show a whole story behind every garment and its details.
