The 90's

The 90's:

These are the women who had a unique personality with charming looks in 90s. Girls were modern, homely nature and dramatic with their stunning looks. The colors of that period were known for its more neutral and moody colors. Alternatively, this era also known for noisy jewel coloured palette was composed of rich blues, bright purples, deep greens and hot red. So, personally 90s era is my favourite and which made me bring that back with a combination of modern era.

Zodiac

Zodiac:

According to my concept- zodiac, it depicts mood of faith which shows confident in something and while following the theme of zodiac it's formerly astronomy, the zodiac is divided into 12 signs each occupying 30 degrees of celestial longitude and roughly corresponding to the constellations aries, taurus, gemini, leo, virgo, libra, scorpio, sagittarius, capricorn, aquarius and pisces. Although the zodiac remains the basis of the ecliptic coordinate system. So, i have taken there's symbol and signs as an inspiration for prints and pattern styles placed them in my collection which shows unique signature of style.
